WEEKLY UPDATE

September 22, 2021

Dear Residents and Families/Representatives,

Please accept this letter as our update on the status of COVID-19 in our facility.

Please note that beginning August 1, 2021 we will no longer be posting weekly updates on our website. We will, however, continue to notify you through our website of any changes in visitation procedures and if we receive confirmation of a new positive case in our facility. We will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

Number of Confirmed COVID-19 Cases Currently in the Facility

Staff: 8

Residents: 2

We had one new staff member test positive in our bi-weekly screening on September 21. The individual has been removed from the facility schedule to follow up with his/her primary care provider and to self-isolate per protocol procedures. Nursing completed screening of all the facility residents and every resident tested was negative

Due to this new employee positive case, Nursing will continue to re-screen every resident at the facility weekly for an additional two weeks as a follow up measure through October 12, 2021.

All employees will remain on a twice weekly screening schedule regardless of their vaccination status.

Date of Last Newly Confirmed Resident COVID-19 Case:

September 14, 2021

Visitation Status:

The positivity rate in Washoe county has risen to 21.3 %.

We have placed our normal visitation schedule on hold.

We will provide for a compassionate care visit on a case by case basis.

You can contact our Receptionist at 775- 829-7220 to schedule a compassionate care visit. If you have any questions or concerns about facility visitation please call the facility and ask to speak with me.

We will keep you updated if the positivity rate in Washoe County or other factors necessitate other infection prevention practices that impact on visitation.

Facility Safety Precautions:

We continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.
