

COVID-19 NOTIFICATION

January 11, 2021

Number of additional confirmed COVID-19 cases in the last 24 hours: 3

Please continue to check our website for additional updates and information on what we are doing to help prevent further spread of COVID-19 in our facility.

If you have any questions or concerns about this notification, please contact us directly at 843-432-3741.

Springdale Healthcare Center

WEEKLY UPDATE

01/13/2021

Dear Residents and Families/Representatives,

Please accept this letter as our update regarding the status of COVID-19 in our facility. Our total number of positive cases since the onset of this virus has been 60 residents and 38 staff members. We had 1 employee and 3 residents test positive this week so we must cancel our Resident Visitation for at least the next 14 days.

As you have probably heard, the CDC recently announced that healthcare workers and long-term care residents should be among the first group of people to receive the vaccine for COVID-19. We are optimistic this will help stop the spread of this virus in our community. Consents for the vaccines are currently available and while we do not have the exact dates that the vaccines will be administered, we will let you know as soon as that information is available. In the meantime, please continue to do your part in limiting the transmission of COVID-19 by wearing masks, washing your hands and keeping a safe distance from others.

We are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering.

Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 803-432-3741

Sincerely,

Yvonne Washburn

WEEKLY UPDATE

04/28/2021

Dear Residents and Families/Representatives,

Please accept this letter as our update regarding the status of COVID-19 in our facility. Our total number of positive cases since the onset of this virus has been 86 residents and 49 staff members. We had 0 employee and 0 resident test positive this week. As we had 2 positive cases of COVID-19 last week, we are only doing outdoor visits. To schedule a visit, please contact our Activities Department

As you have probably heard, the CDC recently announced that healthcare workers and long-term care residents should be among the first group of people to receive the vaccine for COVID-19. We are optimistic this will help stop the spread of this virus in our community. We had our first vaccine clinic on January 8, 2021, our second vaccine clinic on February 5, 2021 and our third clinic on March 5, 2021. Please continue to do your part in limiting the transmission of COVID-19 by wearing masks, washing your hands and keeping a safe distance from others.

We are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering.

Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 803-432-3741

Sincerely,

Yvonne Washburn
